## Guest Lecture on Basics of Stock Market

On dated 15<sup>th</sup> Sep 2023 & 6<sup>th</sup> Oct. 2023

Name of Speaker: - Prof. Mahesh Pawade.

Place of Program: - Computer Lab 2

### Introduction

On September 15, 2023, a guest lecture on the Basics of Stock Market was organized at “Akole Education Society Technical Campus Akole”. The lecture was conducted by “Prof. Mahesh Pawade”, a seasoned expert in the field of finance and stock market investments. The event was well-attended, with participants ranging from students to professionals interested in gaining insights into the stock market.

### Key Highlights

- 1. Introduction to Stock Market:** The guest speaker began by providing a comprehensive overview of what the stock market is and its importance in the financial world. They explained that the stock market is a platform for buying and selling shares or ownership in companies.
- 2. Types of Stocks:** The lecture covered various types of stocks, including common and preferred stocks, and highlighted their differences. The speaker emphasized the importance of understanding the type of stock one is investing in.
- 3. How Stock Prices are Determined:** Attendees learned about the factors that influence stock prices, including supply and demand, company performance, economic conditions, and market sentiment. The discussion helped participants grasp the dynamic nature of stock prices.
- 4. Risk and Return:** The guest speaker delved into the concept of risk and return in stock market investments. They explained that while stocks offer the potential for high returns, they also come with inherent risks. Diversification and risk management strategies were discussed.

**5. Trading Mechanisms:** The lecture covered various methods of buying and selling stocks, including market orders and limit orders. Attendees gained a clear understanding of how stock trading works in practice.

**6. Role of Stock Exchanges:** The guest speaker explained the role of stock exchanges in facilitating stock trading. They discussed major stock exchanges worldwide, with a focus on the functioning of local stock exchanges.

**7. Investment Strategies:** The lecture provided insights into different investment strategies, such as long-term investing, day trading, and value investing. Attendees were encouraged to choose a strategy that aligns with their financial goals and risk tolerance.

**8. Resources for Stock Market Research:** The guest speaker shared valuable resources for conducting research on stocks, including financial news outlets, stock analysis websites, and company reports.

**9. Questions and Answers:** The session concluded with an interactive Q&A session, during which participants had the opportunity to clarify doubts and seek additional information on specific topics.

### **Conclusion:**

The guest lecture on the Basics of Stock Market held on September 15, 2023, was a valuable learning experience for all attendees. It provided a solid foundation for understanding the stock market, stock trading, and investment strategies. Participants left the event with a better understanding of how to approach stock market investments and manage associated risks.

The event was a great success, thanks to the expertise and engaging presentation of Prof. Mahesh Pawade. It left attendees inspired and motivated to explore the world of stocks and investments further.
